Note: Before beginning the installation process, please be sure to close out of all SolidWorks programs currently open on your computer.

1. Insert DVD.

2. When DVD is inserted, The “Welcome to the SolidWorks Installation Manager” window will appear; make sure Individual (on this computer) is selected. Click Next.

3. Enter your 24 digit serial number. Click Next.

Note: After you click Next, a screen will appear indicating that it is searching for internet and checking serial number.
4. Once “Connecting to SolidWorks” is complete, a Summary page will appear. It will display the products that are about to be installed and will provide a location to where the products will be installed. We recommend not changing this location. **Click Install Now** to continue.

5. **Installation is Complete! Make a selection** regarding the SolidWorks Customer Experience Program (we recommend participating, as the usage data help us in development), then **click Finish**.

**YOU CAN NOW RUN SOLIDWORKS STUDENT EDITION!**
