ARTIFICIAL INTELLIGENCE WORKSHOPS

ARTIFICIAL INTELLIGENCE (AI) INCUBATOR AT GRAND RAPIDS COMMUNITY COLLEGE

The incubator provides a structured program of workshops, mentorship and networking opportunities. Incubator participants gain hands-on experience, interdisciplinary collaboration and the skills necessary to thrive in the evolving AI landscape.

The incubator's focus on ethics and responsible AI usage ensures participants are equipped to make a positive impact as they turn their ideas into successful startups or impactful research initiatives.
