X. Procedures

- A. Students may only declare one academic program at a time, therefore, students cannot be awarded more than one associate degree at the same time.
- B. Students may be awarded multiple associate degrees and certificates in any combination aside from the exclusions for AGS and degrees with identical program requirements as outlined in the Policy Statement. For instance, a student may earn an AA and an AS. A student may also be awarded more than one AAAS and more than one certificate.
- C. The Registrar's/Student Records Office will coordinate with the Instructional Support Office to maintain a list of programs that require the same Program Courses.
- D. When a student completes the Graduation Application Form, a degree audit is performed by the Registrar's/Student Records Office in order to determine if a student has completed their degree requirements. The student will be notified if they are unable to be awarded an additional degree per the terms outlined in this policy.
